Export of Rajkot \$ Farmed Diesel Pump Industry products

2387. SHJU SANTOSH BAGRODIA: Will the Minister of HEAVY INDUSTRIES AND PUBLIC ENTERPRISES be pleased to stater

(a) whether it is a -fact that from a high of 22 per cent of total production being exported annually some years ago, only eight per •cent of Rajkot's farmed diesel-pump industry products find its way to the export market; and

(b) if sq, the reasons therefor?

THfe MINISTER OF HEAVY INDUSTRIES AND PUBLIC ENTERPRISES {SHRI MANOHAR JOSHI): (a) and (b) The farm dtesel pumps .Industry is totally de-licensed and de-controlled and therefore the performance of this sector on domestic as well as on export front is based on the inter-play of various market forces. As ascertained, from the Rajkot Engineering Association, over the years, there appears to be a decline in the export performance of Rajkot make .Diesel Engines and Pumps. Reasons for this according to the Association, may *inter-alia* be attributed to withdrawal of export incentives, high interest rates on loans from banks and financial institutions, high Incidence of taxes, devaluation of currency by neighboring arid other South East Asian Countries making their products more competitive etc.
